

**SOLUTION**  
Ready to use

### CLEANMED MOUTHWASH

CLEANMED mouthwash exerts a continuous and prolonged anti-plaque action over time due to the ability of chlorhexidine to remain fixed on mucous membranes, gums and tooth enamel for a long time. It's particularly suitable for intensive anti-plaque treatments, treatment and maintenance of gum problems, minor operations, scaling and extractions. For professional use.

- **Chlorhexidine Solution at 0,2%;**
- **Alcohol free;**
- **It doesn't interact with cements, dental resins and composites, protecting them from alcoholic abrasion;**
- **Aloe Vera active ingredients to fight bad breath.**

**PACKAGING**  
18 mini-bottles/Box
